

GROOVING AND PROFILING CBN INSERTS FOR HARD MATERIAL MACHINING

# GROOVING AND PROFILING CBN INSERTS FOR HARD MATERIAL MACHINING

- Compatible with TClamp<sup>Ultra+</sup> holders for a diverse range of applications
  - Excellent surface finish
    - TB2015 grade •
  - High wear resistance and optimal toughness •

## TCLAMPUTRAGE GROOVING AND PROFILING CBN INSERTS

### Product Overview

Ingersoll introduces TClamp<sup>Ultra+</sup> grooving and profiling CBN inserts for hard material machining

**Ingersoll's TClamp**<sup>Ultra+</sup> **TB2015** grade CBN inserts provide excellent machining performance even in continuous as well as intermittent machining of hard materials. Following the current line of the high-feed turning **TSG-HF** insert, other **TSG** inserts suitable for grooving and profiling have been added to provide more diverse machining solutions for hard materials.

**TSG** 

**Features & Advantages** 

TSG (Full-Radius)

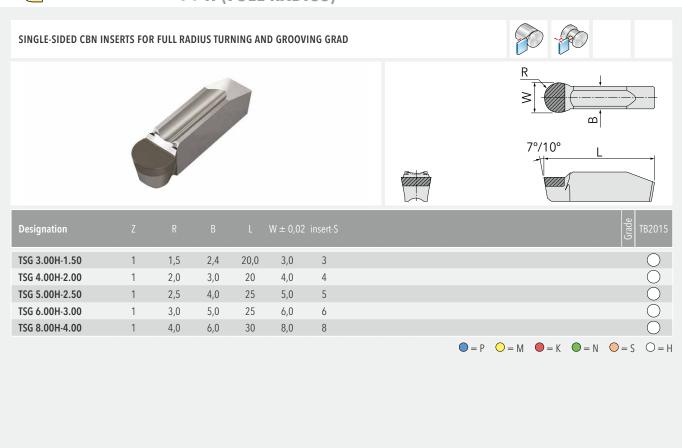

- · Grooving and profiling CBN insert for hard material machining
- Compatible with TClamp<sup>Ultra+</sup> holders for a diverse range of applications
- Excellent surface finish
- TB2015 grade
  - CBN grade with high wear resistance and optimal toughness
  - Appropriate for intermittent and continuous cuttting of hard materials

# TCLAMPUTRA TSG H (FULL-RADIUS)
